We have found the perfect ornament to commemorate this year!
You will see the Stars, which are a symbol for our annual Starry Night Dinner, an Evergreen tree for the holiday season, a heart for the love in that surrounds us in our mission and a house, which represents the beginning of the construction of Aurora House.

The fact that all of these symbols are incised in a heart seems most fitting as well since Aurora House exists because of the love we has been shown by our

CommUnIty!

Two-gether, U- n-I can and DID!

You may go into Splatters and Paint your own or purchase them already painted.
